

Disclosures, Informed Consent and Request for Naturopathic Treatment

Naturopathic Medicine focuses on treating the whole person and consists of a customized approach to health care. The true source of the disease/imbalance is sought in order that healing may proceed from the most foundational levels for the greatest long-term benefit. The medicine is tailored to the client and emphasizes prevention and self-care. Our services include the prevention, evaluation, diagnosis, and treatment of injuries, diseases, and conditions through education, lifestyle counseling, nutrition, natural medicines, physical medicine, hydrotherapy, common diagnostic procedures, and other therapies and modalities designed to support the body's natural healing processes. Pharmaceutical agents listed on the Oregon Formulary that are permitted for use by naturopaths will only be employed if it is deemed there are no natural alternatives better suited to the task.
